

REMARKS

The Applicants respectfully request entry of the Amendment.

The Patent Office has alleged that the drawings are not acceptable as they contain excessive text. The drawings have been amended to withdraw text. Additionally, the drawings have also been amended to more clearly define the schematics and sequences. The specification has been amended to include text previously in the drawings. No new matter has been presented.

The Patent Office has indicated that the sequence listing does not comply with 37 C.F.R. §1.822 and/or §1.823, as set out in the marked-up "Raw Sequence Listing". Please find enclosed a corrected sequence listing, including a diskette with sequence listing in computer readable form. No new matter has been added. The content of the sequence listing information recorded in computer readable form is identical to the written sequence listing.

Applicant submits that the claims of the present application are in condition for allowance and notification to that effect is earnestly solicited. The Examiner is invited to contact Applicant's representative at the telephone number listed below, if the Examiner believes that doing so will advance prosecution.

Respectfully submitted,

MERCHANT & GOULD P.C.

PATENT TRADEMARK OFFICE

Amendments to the Drawings:

The sheets of drawings attached in the Appendix include changes to Figs. 1 to 5. A full set of formal drawings are included to replace the drawings as originally filed with this application.

The Figs. 1 to 5 have been changed as follows:

Figures 1, 2, and 3 have been modified to make the schematic more clearly understood and remove unnecessary text.

Figure 4 has been changed to Figure 4A and 4B.

Figure 5 has been changed to Figure 5-1 to 5-120.
